HUDSON'S
BAY
COMPANY.

The Cup That Cheers

Nothing contributes so much to the comfort and enjoyment of a meal as a cup of good Tea. There are so many different kinds offered for sale that a really genuine article is hard to get. The Hudson's Bay Co. has always been famed for selling good

TEA

To meet the demand for India and Ceylon Teas we have devoted our best efforts to procure through direct reliable channels the goods that elsewhere have given the most satisfaction. The firm of Joseph Tetley & Co., is one of the largest importers of these Teas and we have accepted their agency for Manitoba and the N. W. T. Their transactions are very large, they employ the best Tea experts and their name is a guarantee of quality. Firms who only import a few thousand pounds are not in a position to compete either in quality or value. "Once used & always used." Use

TETLEY'S
TEA

and you will use no other. We sell it in 1lb and 1lb packets at 50 cents a Pound.

While we sell good Tea, we also sell good COFFEE. Pure Mocha Java, Rio, fresh roasted and ground when ordered. Chase & Sanborn's pure Java, Mocha and O. G. Java, Ackerman's Cafe des Gourmets. A lover of Coffee can always depend on getting the best at the Hudson's Bay Store.

HOTELISTS' CHARGES.

Moylan, Inspector of Dominion Penitentiaries, comes rather badly off the controversy which he started in his official report for 1892. His charge was that an undue proportion of the criminals in our penitentiaries came from the classes of persons who were shipped from England, and especially from London. The impression left on the public mind was that Mr. Moylan had special reference to the children who had been shipped to Canada by English philanthropic societies, and that the criminal population alluded to was largely made up of persons who had left their country for their country's good. The master has been taken up very warmly in England and there has been correspondence between Dr. Barnardo and the Minister of Justice, and between Dr. Moylan and the Minister of Justice, and the results that Inspector Moylan is called upon to explain his explanations. The *Classmate Gazette*, of London, has the following to say on the subject:

"The Inspector now tells us that he had no thought of Dr. Barnardo's work in his mind when he talked so glibly of 'periodical shipment' to Canada of 'cockney sneak-thieves and pick-pockets,' the 'youthful imitators of Fagin and Bill Sikes.' The meeting further desires to offer to the Minister of Justice at Ottawa its respectful but earnest protest against the use of language so contained in Mr. Moylan's report, which is likely to unexplainably inflict much wrong upon philanthropic institutions and individuals in England."

TOO NARROW.

The *Toronto Empire* says:—"Mr. Mulock, P.M., moved an ultra-loyal resolution in Parliament two years since. Yet today, he wants to stave off the Canadian establishment of the Queen's representative and to practically abolish the office itself by selecting a Canadian who would necessarily be a politician, and thereby render our whole British colony a farce. It is Mr. Jameson's intention to support Unrestricted Reciprocity. So much for Grity loyalty."

This is a very narrow view to take of the question discussed by Mr. Mulock. It cannot be said that there is a desire "to stave off the Canadian establishment of the Queen's representative," when efforts are made to check the expenditure of hundreds of thousands of dollars on the miserable buildings known as Bishop Hall, nor is the suggestion that there are Canadians who can satisfactorily fill the office of Governor-General an evidence of disloyalty. There is nothing yet to show that the majority of Canadians would prefer a Canadian in that office, but Canadians may express their confidence in the ability of their fellow countrymen to fill any appointment in the political service of the Empire without being charged with a want of loyalty to the Empire. Our Toronto contemporaries must try and educate themselves to broader views of Canadian and Imperial affairs.

POLICE COURT.

Clem Austin Arrested on a Separate Charge.

Last evening Prof. Clem Austin, the physicist, was arrested on a warrant issued by the magistrate, Hon. J. E. St. Vincent de Paul, on Friday night last of \$30.

The case came up before George MacLeod, J. P., in the police court at 10 o'clock this morning. Hon. J. A. Langton, supervisor of police, and Mr. Wallace acted as referees. Mr. Ward Jones intended to practise his profession in Canada.

A man named Regan, who is said to be a traveller for a New York house, has reported to the police that on Friday night last he was robbed at a diamond pin valued at \$120, a gold watch worth \$125 and between \$30 and \$35 in money. The police are investigating the matter.

Base Ball Matters.

The fine weather we have been enjoying lately has had the effect of reviving the interest in summer sports. The base ballers are beginning to get into shape again, and discussing the prospects for the coming season. In fact, on Friday afternoon last Jimmy Smart appeared on the athletic grounds with a baseball and tried to encourage the other boys to take up the game of the month. He painted a glowing picture of the pleasure to be derived from a game of "softball," and by his eloquence induced several to participate.

The all too familiar rule, so that we were not slow to realize that the day was not propitious for base ball. The leather sphere fell a little too hot for us, and the enthusiasm was dampened—but the boys who had played the day before were probably over it. The HERKIMER sporting club had also had several interesting conversations on base ball, and I am sure that they will be continuing them with enthusiasm as ever and upon the early organization of the clubs as a matter of great importance. He has, I think, several new ideas which he will present to the members of the club. Some of last year's players say they will not run the diamond during the present season, but as this is a running declaration of war, it is better to let it go. It is a wise policy that they will take an active part in the sport during 1903. We trust that Councillor Watson's newly acquired dignity will not prevent him from taking an active part in the boys' game. There is already some talk of a team visiting Edmonton on May 22d, so that the proper thing for the local clubs to do is to organize at once.

Irish Matters.

Mr. Justice O'Brien, at the conclusion of the County Clare Assizes recently declared that the administration of justice was hopeless, and that it was advisable to remove the administration of criminal law entirely out of the county.

He further wrote:

"I would advise from making any allusion to certain matters dealing

with the administration of the

law in this county when speaking to the grand jury because I did not know what any defense I could

propose to wish to influence the

result of the legal proceeding

here; but I consider it my duty now to draw the attention of those who are charged with the main

task of implementing this by implication."

Champney, a man of great energy,

said Courtland, laying his hand on

the young man's shoulder with a smile, "Whether he could accept

Movement of Settlers.

Another party of settlers, some 20 in
number, from Grand Forks, Dakota, ar-
rived at Lethbridge yesterday. They
travelled by train and boat across the
Rocky mountains. About 8 o'clock the morn-
ing the snow was so deep that they were
unable to get across. Consequently
they were compelled to turn back.
They will go to the Shoshone Falls

Greening on the G & W.

Great complaints are being made
from men and others using the Mac-
millan road of the state of the crossings
on the G & W road. It seems that
the timbers were removed from be-
tween the rails and at the approach-
es to the crossings on account of
the want of timber, and rendering it
impossible to some-
thing train likely. But the snow
has gone and the timbers have not
been replaced, and in consequence
several wagons and rigs have been
damaged at the crossings. No
doubt the railroads officials
cause them to be replaced without
delay now that the the train has
been brought to their notice.

Gatton at Sheep Creek.

The loss of cattle round Millar-
ville and up the head waters of

Sheep Creek is estimated by a com-
petent person to be not less than
3 per cent. In fact, where

settlers were present enough to
provide hay and shelter no loss
was suffered at all. A large proportion
of the cattle round there

is a very small article round there
just now, being almost unobtainable

at any price, but the snow is
all gone except in the deep can-
ters, and the cattle can rustle for
themselves, making a very ad-
equate home in the gullies on the
side of the hills. The hills are
very bad, the mail taking 10 hours

to make the 20 miles between Mid-
maville and Millarville on Satur-
day.
